

RECODE WITH THE BREDESEN PROTOCOL

Type 3 Toxic

How It Works

ReCODE Protocol Type 3 Toxic has been designed to provide support for individuals on the Bredesen Protocol who have been identified as Type 3 Toxic on the ReCODE Report.*

ReCODE Protocol Type 3 Toxic has been specially formulated for optimizing detoxification, including liver support and kidney support.*

Studies show that prolonged exposure to environmental toxins, such as mold, can cause elevated levels of mercury and mycotoxins in the bloodstream. These harmful elements could disrupt brain function by creating oxidative stress and impacting how effective oxygen-rich blood flows throughout the body.

Everyone is different, and results will vary from person to person. The key is to maintain consistent use every day to see the best results.

Features & Benefits

Promotes a strong memory for those who have been exposed to toxicity in their environment.*

Supports healthy levels of glutathione, a key detoxicant and antioxidant.*

Strengthens vein and capillary integrity for stronger blood vessels.*

Supports the Neutralization of Free Radicals / Provides Antioxidant Support*

Vitamin C (Ascorbic Acid)

This ascorbic acid form of vitamin C is water-soluble and has typically been used to support normal histamine production. It has also been shown to provide an abundance of antioxidants, which can help neutralize harmful free radicals, while supporting vein and capillary integrity for a stronger blood flow.*

N-Acetyl Cysteine

An amino acid that the body converts into powerful antioxidants, such as glutathione, to protect against free radical damage. N-Acetyl Cysteine has been shown to strengthen the integrity of cell walls and break down mucus.*

Taurine

An amino acid that supports cell membrane stabilization. It also has antioxidant and detoxifying properties.*

Resveratrol

This compound has antioxidant properties that protects against free radical damage and promotes brain health. Resveratrol has also been shown to support the body's ability to decrease liver and blood fat, while enhancing insulin sensitivity.*

Promotes Normal Liver Function*

Guggul Resin

This extract helps maintain a normal balance of cholesterol levels by stimulating excretion, uptake, and metabolism of cholesterol.*

Dandelion

This plant supports normal liver function by enhancing the liver's ability to produce bile and strengthen its detoxifying properties. It can also assist with digestion.*

Chicory

A root that has been shown to have prebiotic properties and used to support liver health.*

Selenium (L-selenomethionine)

An antioxidant that supports glutathione production, stimulating the detoxification process and supporting liver health.*

L-OptiZinc® Zinc

An essential mineral that offers whole body cellular support and has antioxidant properties. It has also been shown to support glutathione in the detoxification process. L-OptiZinc® pairs zinc with the amino acid, L-methionine, to increase absorption and maintain higher levels of plasma.*

Offers Digestive Support*

Turmeric

This plant has been used in Ayurvedic medicine for centuries to support healthy inflammation response and for its antioxidant properties. It also has been shown to support the restoration of liver tissue and relieve intestinal gas to support better bowel movements.*

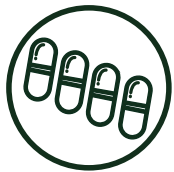

Barberry

This tonic has been shown to help support a normal digestive system, including the stomach, the liver, the gallbladder, and the intestinal tract. It may help soothe an upset stomach and improve gastrointestinal discomfort.*

Artichoke

This plant may support the body's ability to encourage natural bile flow, a vital function of the liver. In doing so, artichoke may also help to stimulate liver and gallbladder activity, supporting waste elimination.*

How to take

4 Capsules

With food

Daily

ReCODEsupport.com | 801.308.8001

Ingredients

Supplement Facts		
Serving Size: 4 capsules daily		
Servings per container: 30		
	Amount per serving	% Daily Values
Vitamin C (as ascorbic acid)	750 mg	833%
Zinc (as OptiZinc® Zinc Methionate)	30 mg	273%
Selenium (as L-selenomethionine)	200 mcg	364%
Milk Thistle (<i>Silybum marianum</i>) seed extract (80% [200 mg] silymarin)	250 mg	†
Artichoke leaf extract (<i>Cynara scolymus</i>) (4:1)	250 mg	†
Dandelion root extract (<i>Taraxacum officinale</i>) (4:1)	200 mg	†
N-Acetyl-Cysteine	200 mg	†
Taurine	100 mg	†
Turmeric (<i>Curcuma longa</i>) rhizome extract (95% [23.75 mg] curcuminoids)	25 mg	†
Barberry (<i>Berberis vulgaris</i>) root bark	25 mg	†
Roasted Chicory (<i>Cichorium intybus</i>) root	25 mg	†
Guggul (<i>Commiphora mukul</i>) resin extract (2.5% [.625 mg] guggulsterones)	25 mg	†
Resveratrol (from <i>Polygonum cuspidatum</i>)	25 mg	†

† Daily Values not established.

Other Ingredients: Hypromellose (vegetable cellulose), rice bran, silica.
